

The College of Metaphysical Studies

Spiritual Past Life Regression Facilitator Standards for Graduation and Certification

Graduation and certification from this program is granted when you provide evidence of being prepared to conduct past-life and age regressions. This evidence is more than spending a certain length of time in training and completing designated course. Evidence of being prepared to conduct past-life and age regressions emphasizes spiritual, mental, and emotional maturity; devotion to a life-style of service to others; metaphysical, spiritual and intellectual clarity about the purpose and meaning of the metaphysical practitioner profession; and the demonstrated skills to work effectively with people, organize one's own life, and understand administrative responsibilities appropriate to your chosen field of service. Specific requirements are:

1. The satisfactory completion of a minimum of 57.5 credit hours. This includes the necessary internship of 1 credit hour (15 contact hours) to be performed during this period.
2. Any additional requirements that the faculty may assess as a result of reviews or conferences.
3. All work counted toward the hours required for graduation must be completed with the grade of E (excellent) or S (satisfactory).
4. Evidence of such metaphysical, spiritual, mental, and emotional maturity as will support the judgment, by the faculty, of your readiness and fitness as a Past Life Regression Facilitator.
5. Recommendation of the faculty.

Graduation from the CMS past-life and age regression program does not mean automatic certification as a past-life and age regression facilitator. A student who successfully completes the prescribed course of study shall receive a certificate of completion for each course. Individual Intern Programs will be customized to the availability of each student by the CMS faculty advisor. Service hours performed will be converted to credit hours and entered on the official student transcript. (See Internship, Licensing and Ordination for Certification Programs.) The internship might include, but is not limited to the following:

Conduct a minimum of four taped past-life and/or age regressions. The tapes must be legible. Forward the tapes to the CMS student advisor for grading.

Objectives

To offer College of Metaphysical Studies students:

- a. Assistance in determining spiritual and metaphysical personal and career objectives.
- b. Opportunities to develop a sense of responsibility.
- c. Hands-on practical experience in the school of learning and the workplace.

Expectations

Students will be expected to:

- a. Apply concepts learned in holistic healing courses to practical client situations.
- b. Learn to recognize and adapt behavior and dress to identified professional norms.
- c. Expand professional skills by developing techniques and applying methods learned on site.

- d. Communicate appropriately and work effectively with supervisors, co-workers and others.
- e. Model ethical standards and behaviors.
- f. Demonstrate enthusiasm and willingness to give quality work.
- g. Seek and respond positively to suggestions for professional improvement.

Internship is designed to test "on site" skills of the student, to place the trainee in a situation requiring accountability. During the program the student should make monthly reports (or arrange monthly conferences) with their supervisor to assess progress. At the conclusion of the internship, the student is a candidate for certification by as Past Life Regression Facilitator by CMS. Certification is not an honor automatically conferred after completing course work and the internship program. The quality of the candidate's work is assessed by CMS. An interview with candidates may be required before bestowing certification as Past Life Regression Facilitator, and CMS reserves the right to do so.
