

The College of Metaphysical Studies

School of Holistic Healing Arts Bachelor of Metaphysical Healing Arts Standards for Graduation

The right of graduation from the Holistic Healing Arts Education Program is granted when you provide evidence of being prepared to practice the metaphysical/spiritual/holistic healing arts profession. This evidence is more than spending a certain length of time in training and completing designated courses. Evidence of being prepared to practice the holistic healing arts emphasizes spiritual, mental, and emotional maturity; devotion to a life-style of service to others; metaphysical, spiritual and intellectual clarity about the purpose and meaning of the metaphysical/spiritual/holistic healing arts profession; and the demonstrated skills to work effectively with people, organize one's own life, and understand administrative responsibilities appropriate to your chosen field of service. Specific requirements are:

1. The satisfactory completion of a minimum of 120 credits of work over a minimum period of three calendar years. This includes the necessary internship of 8 credit hours (120 contact hours) to be performed during a period of three (3) calendar years.
2. The satisfactory completion of an Associate of Metaphysical Healing Arts and Certification as a CMS Metaphysical Healing Practitioner.
3. Any additional requirements that the faculty may assess as a result of reviews or conferences.
4. All work counted toward the hours required for graduation must be completed with the grade of E (excellent) or S (satisfactory).
5. Evidence of such metaphysical, spiritual, mental, and emotional maturity as will support the judgment, by the faculty, of your readiness and fitness as a metaphysical healing practitioner.
6. Recommendation of the faculty.

Graduation from the CMS holistic healing arts program does not mean automatic certification as a healing arts practitioner, teacher, or administrator. A student who successfully completes the prescribed three-year course of study shall receive a degree entitled Bachelor of Religious/Metaphysical Healing Arts. Individual Intern Programs will be customized to the availability of each student by the CMS advisor. Service hours performed will be converted to credit hours and entered on the official student transcript. (See Internship, Licensing and Ordination for Certification Programs).

Internship and Certification

Introduction

Internships are work and service experiences that complement a student's academic program. It directly relates to a student's program of study. Students may begin their internship program after the first year of course work is completed. It should be understood that the internship is designed to test "on site" skills of the student, to place the trainee in a situation requiring accountability to a congregation or other group.

The internship is a 120 clock – hour experience (8 CH) supervised both by School of Holistic Healing Arts faculty and a certified holistic practitioner or ordained minister.

A student who successfully completes the prescribed three-year course of study shall receive a diploma entitled Bachelor of Metaphysical/Spiritual Healing Arts. Students may begin their internship program after the first year of course work is completed. If accepted to the program the student will then spend the year developing skills and demonstrating healing ability by performing such healing duties under the supervision of the faculty advisor or a certified healing practitioner or ordained minister. The student is required to perform 120 hours (8 semester credit hours) of service time as prescribed by the faculty advisor. At the successful completion of the internship program, and upon the recommendation of the faculty advisor, healing practitioner or ordained minister the student will receive their Healing Certification from NAMI. The internship might include, but is not limited to the following:

1. Must organize and direct a healing service
2. Must establish a healing/counseling relationship with a minimum of five individual (or groups of) clients. The healing/counseling sessions must be initiated and dated by the client. The format for the synopsis would include date, time, length of session, individual's and student's signature. The synopsis should be turned in to the college supervisor.
3. Develop and teach a healing workshop.
4. Any combination of the above or other projects approved by the CMS supervisor.

Objectives

To offer College of Metaphysical Studies students:

- a. Assistance in determining spiritual and metaphysical personal and career objectives.
- b. Opportunities to develop a sense of responsibility.
- c. Hands-on practical experience in the school of learning and the workplace.

Expectations

Students will be expected to:

- a. Apply concepts learned in holistic healing coursed to practical client situations.
- b. Learn to recognize and adapt behavior and dress to identified professional norms.
- c. Expand professional skills by developing techniques and applying methods learned on site.
- d. Communicate appropriately and work effectively with supervisors, co-workers and others.
- e. Model ethical standards and behaviors.
- f. Demonstrate enthusiasm and willingness to give quality work.
- g. Seek and respond positively to suggestions for professional improvement.

It should be understood that the internship is designed to test "on site" skills of the student, to place the trainee in a situation requiring accountability to a congregation or other group.

During the year the student should make monthly reports (or arrange monthly conferences) with their supervisor to assess progress.

At the conclusion of the internship, the student is a candidate for the Bachelor of Metaphysical Healing Arts degree. Certification is not an honor automatically conferred after completing course work and the internship program. The quality of the candidate's work is assessed by the New Awareness Ministries International and CMS. An interview with the candidate may be required before bestowing the Bachelor of Metaphysical Healing Arts degree and CMS and NAMI reserve the right to do so.
